

2026 Shanghai International Summer School for Outstanding Energy and Power Engineers amid New Productive Forces

Admission Brochure

To meet the demand for international exchange and cooperation among high-level talents in the energy and power sector on the backdrop of new-quality productive forces, and leveraging Shanghai Dianji University's disciplinary strengths in energy and power studies alongside the industrial advantages of the Lingang New Area, the university will establish an international exchange platform for doctoral and master's students in energy and power. To this end, Shanghai Dianji University will in July 2026 host the Shanghai International Summer School for Outstanding Energy and Power Engineers amid New Productive Forces.

I. Program Theme

The program employs a collaborative university-industry approach with interdisciplinary integration through diverse formats including course instruction, corporate internships, academic lectures, and cultural immersion. By leveraging high-quality coursework and university-industry exchanges, it provides students with opportunities to engage in international coursework and project-based learning, enhancing their ability to solve complex engineering problems. This initiative effectively makes use of the enthusiasm and initiative of both university and enterprises, advancing the organic integration of specialized knowledge with engineering practice. Through an interdisciplinary convergence model, the program enhances the cross-disciplinary expertise and humanistic literacy of high-level talent, thereby elevating the diversified comprehensive competitiveness of cultivated professionals.

II. Program Schedule and Content

Program Duration: July 6, 2026 - August 2, 2026.

Content Arrangement:

This project aims to foster international collaboration and exchange for cultivating Outstanding Engineers in energy and power engineering through diverse formats including course instruction, corporate internships, academic lectures, and cultural immersion experiences.

1. Energy systems supervision and fault diagnosis; Management for emerging leaders in the energy industry; Finite element analysis software and operation; Modern industrial control system.
2. Leveraging the industrial cluster advantages of Lingang New Area within the Shanghai Pilot Free Trade Zone, organize participants to visit and intern at leading enterprises in the energy and power sector.
3. Invite distinguished experts and scholars in the energy and power sector to deliver specialized lectures, focusing on core topics within the energy and power field under the new quality productive forces.
4. Conduct in-depth research on Shanghai-style culture by organizing visits to Chongming Island and urban walking tours, experiencing the essence of Shanghai culture: inclusiveness and openness.
5. Centered around characteristic elements of traditional Chinese culture, the project will host a diverse array of cultural experience activities.

Please refer to Table 1 for the schedule. Specific arrangements will be adjusted according to the progress of the program.

Table 1: Schedule

Day	Date		Schedule	Day	Date		Schedule
1	July 6	Monday	Registration	15	July 20	Monday	Course Study
2	July 7	Tuesday	Opening Ceremony and Expert Lecture 1	16	July 21	Tuesday	Course Study
3	July 8	Wednesday	Course Study and Cultural Experience 1	17	July 22	Wednesday	Course Study and Cultural Experience 3

4	July 9	Thursday	Course Study	18	July 23	Thursday	Course Study and Expert Lecture 3
5	July 10	Friday	Site Visit and Learning 1	19	July 24	Friday	Site Visit and Learning 3
6	July 11	Saturday	City Walk 1	20	July 25	Saturday	City Walk 2
7	July 12	Sunday	Leisure	21	July 26	Sunday	Leisure
8	July 13	Monday	Course Study	22	July 27	Monday	Course Study
9	July 14	Tuesday	Course Study	23	July 28	Tuesday	Course Study
10	July 15	Wednesday	Course Study and Cultural Experience 2	24	July 29	Wednesday	Course Study and Cultural Experience 4
11	July 16	Thursday	Course Study and Expert Lecture 2	25	July 30	Thursday	Course Study and Expert Lecture 4
12	July 17	Friday	Site Visit and Learning 2	26	July 31	Friday	Site Visit and Learning 4
13	July 18	Saturday	Leisure	27	August 1	Saturday	Closing Presentation
14	July 19	Sunday	Leisure	28	August 2	Sunday	Closing Ceremony

III. Enrollment Quota

This program plans to enroll 20 - 30 participants. 20 participants can receive . scholarships. Admission will be based on a comprehensive evaluation of the applicants' qualifications. The scholarship covers tuition, accommodation, meals, insurance, and other related expenses.

The scholarship is open to non-Chinese citizens residing abroad, with an age range from 16 to 50 years.

The scholarships will be awarded by the event organizing committee after reviewing the application materials. The results will be published on the webpage of the International Cooperation and Exchange Office of our university: <https://guojijl.sdju.edu.cn/>.

IV. Application Details

Application Period: From now until May 20, 2026, 17:00 (based on the time of online application submission).

Related Fees:

All participants are responsible for their own international and domestic travel expenses.

Non-Scholarship Participants: Required to pay the following fees (unit: RMB, per person):

Table 2. Program Fees

Total	Fee	Details
¥8500	¥500	Registration fee
	¥2800	Course tuition fee
	¥600	Cultural activity fee
	¥1400	Accommodation fee: Double rooms are provided by default at a rate of ¥50 per person per day, totaling ¥1400 for the 28-day program. Single rooms are available at ¥100 per person per day, totaling ¥2800 for 28 days. Applicants requesting a single room are required to pay an additional ¥2800.
	¥2240	Meal fee: The average cost is ¥80/person/day. Based on a project duration of 28 days, the

		settlement will be made based on the actual expenses incurred.
	¥640	Transportation fee
	¥160	Clothing fee
	¥ 160	Insurance fee

Application Procedures and Notes:

Application Method: Access the link : <https://f.wps.cn/g/3yuzP0Qi/> complete your personal details and upload relevant documents.

At the same time, please fill out the International Summer School Application Form and send it to the email address 11016@sdju.edu.cn. The email subject should be named as: **Name + SDJU International Summer School**.

Please upload the following application materials:

1. Scanned copy of passport (page with photo);
2. One passport-sized photo and one life photo;
3. Personal resume (in Chinese or English);
4. Academic transcript;
5. Student ID Card;
6. English proficiency proof, such as TOEFL, GRE, or IELTS. If the working language or university teaching language is English, English proficiency proof can be waived; please prove that English is the language at your workplace or the medium of instruction at university.

After reviewing and confirming the applicant's registration materials, our institution will issue an Invitation Letter via email. Admitted participants are responsible for applying for a Chinese F visa (academic exchange, visits, study tours or other relevant activities). Those whose nationality qualifies under China's visa-waiver policy may enter China under the corresponding visa-free procedures.

Please ensure that the email address and phone number provided in the application form are valid and reachable.

Applicants must report to the university on the date specified in the admission letter. If unable to report on time, applicants must obtain prior approval from the International Cooperation and Exchange Office; otherwise, it will be considered a voluntary withdrawal.

Submitted application materials will not be returned.

V. Contact Information

Contact Person: Ms. Jiang
