

With 11,500 employees worldwide, AVL is the world's largest independent company for the development, simulation and testing of powertrain systems (hybrid, combustion engine, transmission, electric drive, batteries, fuel cell and control technology) for passenger cars, commercial vehicles, construction, large engines and their integration into the vehicle.

Transmission-, Hybrid Vehicle-, Battery Electric Vehicle and E-Axle Calibration
Powertrain Engineering

We offer a Diploma Thesis:

Automated generation of SQ assessment reports using AVL DRIVE

Description

AVL-DRIVE 5.0 provides possibilities to analyse collected SQ assessment data. A template shall be created within AVL-DRIVE to generate all plots needed for the report. All plots shall be combined in a report automatically to reduce efforts of SQ reporting.

FIELDS OF STUDY

- Mechanical Engineering
- Electrical Engineering
- Mechatronics
- Technical Physics
- Automotive Engineering
